### **Experience**

#### **Thermo Fisher Scientific**

Greater San Diego Area (01/2013 - 03/2025)  
Sr. Visual Designer of Product UI

Founding member of the Design Center team at LifeTechnologies, leading visual design initiatives for this in-house design studio. We were bought by Thermo Fisher Scientific in 2014.

- Designed the UIs and launched over 30 unique products, 9 of which won awards. This included embedded UIs for instruments, mobile apps, and analysis software, resulting in hundreds of millions of dollars in revenue.
  - ProFlex PCR instrument that launched year one achieved \$1.04M in revenue within two months through innovative instrument design, surpassing AOP by 129%, and ultimately contributing to the company's acquisition by Thermo Fisher Scientific.
  - Ion Chef instrument was chosen to help sequence the Ebola virus outbreak in Sierra Leone, 2014.
  - SeqStudio instrument was the first in the world to sequence the COVID virus genome, laying the groundwork for the diagnostic Covid test, and eventually, the vaccine.
  - Ion Torrent Genexus System returns Next Gen Sequencing results in as little as 24 hours, with minimal hands-on time, providing quick test results for patients with cancer and other genetic diseases.

#### **Active Network**

Greater San Diego Area (09/2009 - 01/2013)  
Senior Visual Designer

- Led visuals for the first launch of corporate rebrand (Active Advantage), enhancing brand identity and user experience.
- Spearheaded visuals for Active's first e-commerce site, achieving the largest private sales website in the sporting goods industry by membership.
- Drove overall brand development for registration software, integrating three business units (endurance, sports, and camps), resulting in a cohesive user experience across product lines.
- Successful \$1 Billion dollar IPO in 2011, and was subsequently acquired.

**Intuit**

Mountain View, CA (06/2002 - 06/2009)  
Senior Visual Designer

- Directed visual design for the corporate site (Intuit.com), QuickBooks.com, Quicken.com, and TurboTax.com.
- Introduced novel A/B design testing mechanisms, setting the standard for user experience industry-wide.
- Founding member of the Intuit SWAT team, providing UX/UI support for critical projects, contributing to the team's industry-wide recognition.
- Winner of Intuit's 'Ease of Use' design award in 2006, demonstrating exceptional design skills and user-centered design approach.

**Designworks**

San Jose, CA (03/2000 - 03/2002)  
Graphic Designer

As a graphic designer at designworks, I worked closely with start ups from around Silicon Valley, on a variety of assignments, including the creation of corporate identities (branding), business cards, brochures and websites. Created trade show signage, brochures and e-cards.
